

## Factory Certified Calibration Plans

Have confidence in every measurement

The best way to ensure top performance is to follow a consistent calibration schedule. And there is no better source for calibration than the original equipment manufacturer.

### Key Features

You can keep your equipment running in like-new condition with a Factory Certified Calibration Plan. This plan includes:

- Verification of specifications using proprietary procedures developed by Tektronix and Keithley
- Adjustment as necessary to restore top performance
- Updates to instrument firmware
- Minor repairs when needed
- Installation of reliability and safety updates
- Traceability to national metrology institutes
- Certificate of Traceable Calibration
- Maintenance of traceability records
- Optional test data report
- Free shipping and priority service

### Calibration Service Levels

Tektronix offers a range of calibration service levels to meet the specific needs of your company and help you maintain regulatory compliance.

Calibration Features	Z540 Calibration <sup>1</sup>	ISO 17025 Compliant <sup>1</sup>	ISO 17025 Accredited
