

testforce IWCE 2020 PROMOTIONS

**Buy 3 Options
- Save 25%
PLUS
Buy One More
- Get One Free!**

For a limited time, when you invest in the 8800SX or 3920B from VIAVI and at least 3 software options, you can save 25% off the price of the options!

Plus, by acting now, you can save even more! When you add on another option – you get another option – free! **The combined savings can add up to more than 32% saving on software options!**

Here's how it works:

1. Buy the 8800SX (with 500 W internal thru-line power meter) or 3920B at regular MSRP.

2. Select the software options you want to tailor the test set to your unique testing requirements. Whether you are testing P25, P25 Phase 2, DMR (MOTOTRBO™), NXDN or other technologies, you can save 25% off up to three options.

3. Select another option at regular MSRP and get an equivalent priced option free!

4. Don't have a configuration that fits for you application? Work with Testforce for your own special configuration!
